

Jcturf Residential

Residential Artificial Grass

Your home needs residential artificial grass because in the long run, it is cost-effective to use residential fake grass. Especially if you use JC residential grass

Why Jcturf Residential ↓

Why Jcturf?

The artificial grass system includes a special permeable surface that drains through a 0.5mm hole in the back, and an infill material that keeps the artificial grass erect vertically.

Finally, there is the yarn that produces the fake grass. This makes up a finished lawn ecosystem
